ABOUT BENARA NURSERIES

Founded in 1963, Benara Nurseries stands as a prominent, family-owned wholesale production Nursery situated in Western Australia. Spanning 147 hectares in Carabooda, the nursery grows a wide range of potted plants for the retail, landscape and revegetation industry.

With over two centuries of combined experience in plant production, the fourth generation of Benara Nurseries, offers unmatched expertise. Our team of 300 full-time and part-time employees includes up to 50 key staff members with horticultural qualifications, many of whom have been with us for over a decade. Their dedication has been instrumental in our sustained success and respected reputation.

Benara Nurseries skilled Propagation Department meticulously cultivated over 1,500 species, including exotic and native varieties, from seeds, cuttings and tissue culture. This careful process results in more than 5 million potted plants annually. We also produce over 3 million flower and vegetable seedlings each year, underscoring our commitment to excellence in plant propagation.

SERVICES

Revegetation & Forestry

Driven by our commitment to restore natural habitats, we've established a dedicated native revegetation department. Leveraging our expertise, we specialise in propagating top-quality native tube stock tailored for revegetation and landscaping projects.

Seedlings

Benara Nurseries boasts one of Australia's most advanced and automated seedlings nurseries. Employing cutting-edge techniques such as soil pasteurization, germination chambers, roller benches, robotic planting machines and boom watering facilities.

Trademart

Our two Trademarts are strategically positioned on both the North and South sides of the Swan River. These Trademarts offer convenient access to our assortment of plant varieties, seedlings, advanced feature trees, ornamental pottery, and an allied range of fertilizers, potting mix and mulch.

Distribution and Delivery

Our own transport fleet ensures plants are delivered to site with great care and arrive in the best possible condition. Landscapers' requests are met as much as possible, and regular visits to retailers throughout the week ensures constant top ups of fresh nursery stock.

Contract Growing

Plants take time to grow, often taking years to reach desired size or look. Our horticultural consultants can advise on lead times, seasonal trends, and new releases, ensuring you achieve the results you want.

Potted Plants - Exotic & Ornamental

It's crucial to us that our customers receive the highest quality plants. We grow native Australian and exotic ornamental plants for retailers and landscapers.

Advanced Trees

Benara Nurseries offers a wide range of native and exotic trees, serving various clients including councils, landscapers, and developers. With over 50 years of experience, we provide advanced trees that enhance aesthetics and support environmental sustainability.

TREE GROWING STANDARDS

Benara Nurseries is accredited to the Australian Plant Production Standard (APPS), the framework for the Australian nursery industry's Best Management Practice programs. APPS covers on-farm systems for production nurseries, growing media manufacturers, and greenlife markets, focusing on compliance in Plant Protections, Biosecurity, Environmental, and Natural Resource Management.

To be accredited under APPS production nurseries must adhere to the Australian Plant Production Standards Best Practice Guidelines. These guidelines, developed by industry experts, detail the 'Best Management Practices' for technical and managerial aspects.

GET THE LOOK

Transform street frontages into a visually appealing and eco-friendly space with native verge gardens. Utilizing local flora, these gardens are well-adapted to the local climate and soil, requiring less water, fertilizers, and pesticides, which makes them a sustainable choice. Native plants also support local wildlife, including birds, bees, and butterflies, enhancing the biodiversity of any area. Designing a native verge garden involves selecting plants that thrive in your region. Consider using a mix of ground covers, grasses, and flowering plants to create a layered look that provides year-round interest. Popular choices might include kangaroo paw, bottlebrush, and various types of grasses and sedges. Incorporating mulch and stones can add texture and help retain moisture. When planning a verge garden, it's crucial to adhere to local council guidelines. Many councils have regulations to ensure that verge gardens are safe and accessible for pedestrians and vehicles. For instance, the maximum height for plants is often restricted to 500mm to maintain clear sightlines. However, these guidelines can vary, so it's essential to check with the local council for specific rules and any required permits.

CALIBRACHOA

Million Bells

Million Bells are popular ornamental plants known for their prolific, colorful blooms. Resembling small petunias, these compact, trailing plants produce bell-shaped flowers from spring to frost, ideal for hanging baskets, containers, and garden borders. Available in various shades, they attract pollinators like bees and butterflies.

Proven Winners Super Bells

Proven Winners' Superbells are Calibrachoa varieties known for their exceptional performance and vivid colors. They thrive in well-drained soil and full to partial sun, perfect for hanging baskets, containers, and garden beds.

ALSTROEMERIA

Princess Lily

Alstroemeria, also known as Peruvian lily, adds impulse and colour to borders and pots. These perennials are known for their compact habitat, with a range of colours from soft pastels to vivid shades of orange, pink, yellow, and white, often featuring attractive speckles or streaks. Alstroemeria thrives in well drained soil and prefers full sun to partial shade, flourishing in moderate climates where they gradually spread through underground rhizomes. Their durability, stunning blooms, and appeal to pollinators make them a delightful addition to any spring garden. Known for their long vase life, these flowers remain vibrant for at least 10 days, even in hot weather. Alstroemeria is highly valued for its continuous flowering and luxurious appearance, making it ideal for elaborate floral arrangements.

NEW RELEASE MANDEVILLAS!

(Available Late Spring)

Introducing **Mandevilla Gold**, this radiant tropical vine dazzles with its large, trumpet-shaped flowers in a rich, golden yellow that brightens any garden space. Ideal for adding a burst of color, it thrives in full sun and well-draining soil, needing consistent moisture and regular feeding to reach its full potential.

Mandevilla Gold Ⓢ

Mandevilla Stars and Stripes Ⓢ

New Variety: **Mandevilla Stars and Stripes** – This stunning tropical climber boasts large, trumpet-shaped flowers with striking red stripes on white petals, creating a star-like appearance. Perfect for adding a dramatic flair to your garden, it thrives in full sun and well-draining soil, requiring regular watering and feeding for optimal growth.

MANDEVILLAS

Mandevilla Classic Cream Pink Ⓢ

Mandevilla Pretty Rose Pink

Mandevilla Classic Dark Red Ⓢ

These tropical and subtropical flowering vines are renowned for their stunning, trumpet-shaped blooms in vibrant colors, including red, pink, white, and yellow. Perfect for adding a touch of exotic beauty to any garden, Mandevillas thrive in full sun and well-draining soil. They require regular watering and feeding during the growing season for lush, vigorous growth. With proper care and a trellis for support, Mandevillas will reward you with a long flowering window, with eye-catching blooms throughout an extended season.

FLOWER CARPET ROSES

These Carpet Roses are top-rated for ground cover, prized for their low maintenance and disease resistance. They create a stunning display when mass planted, with hundreds of flower clusters that bloom continuously for months. Their glossy green foliage provides striking contrast.

ARTHROPODIUM Spring Flowering

Arthropodium, or New Zealand Rock Lily, known for its delicate, star-shaped white or pale lilac flowers that bloom in airy clusters above arching, strap-like leaves. Thriving in borders, woodland gardens, and rockeries, it is well-suited to sun and partial shade. Attracting pollinators like bees and butterflies, it also holds traditional medicinal value. Its elegant blooms and easy care add delicate beauty to any garden or landscape.

Arthropodium Cirriatum

Arthropodium Te Puna

CHAMELAUCIUM

SPRING FLOWERING GERADLTON WAX

Cha Cha ♂

My Sweet Sixteen ♂

Tiny Dancer ♂

The Chamelaucium 'Local Hero' is a standout variety of Geraldton Wax developed by the experts at Kings Park & Botanic Gardens. Known for its fast growth and robust nature, 'Local Hero' produces an abundance of small, waxy flowers that bloom in shades of pink and white, creating a stunning visual display in gardens and landscapes. Its compact growth habit makes it

an excellent choice for both ornamental gardens and the cut flower market, where its blooms are prized for their longevity and beauty. Aside from its horticultural appeal, 'Local Hero' has a significant charitable aspect. For every plant sold, \$1 is donated to the SAS Resources Fund. This fund supports current and former members of the Australian Defense Force, particularly those associated with the Special Air Service Regiment (SASR), and their families, who may be facing hardships due to their service. This makes 'Local Hero' not only a beautiful addition to any garden but also a meaningful way to contribute to a worthy cause.

AGAPANTHUS

Agapanthus, commonly known as African Lily, is a beloved perennial plant, renowned for its striking floral displays. Agapanthus produces clusters of funnel-shaped flowers that range in color from deep blue and violet to pure white. These blooms are held aloft on tall, sturdy stalks that rise above the plant's lush, strap-like foliage, creating a dramatic and eye-catching effect in gardens and landscapes. It is particularly valued for its ability to withstand drought and poor soil conditions, making it an excellent choice for low-maintenance gardening. Additionally, Agapanthus attracts pollinators like bees and butterflies, enhancing the biodiversity of the garden.

VIBURNUM

These shrubs and small trees are favored for their dense growth habit, which provides effective screening and privacy. Viburnums are also prized for their clusters of fragrant flowers, often white or pink, which attract pollinators. Many varieties produce colorful berries that are not only decorative but also attract birds to the garden. Easy to maintain and adaptable to various soil types and light conditions, viburnums are cherished by gardeners for their reliability and ability to enhance landscapes with beauty and functionality.

HEDGING

Hedging serves multiple practical and aesthetic purposes in landscaping and garden design. Primarily, it is used to create boundaries and define spaces within outdoor environments, offering privacy and security by forming natural barriers. Hedging plants also contribute to noise reduction, acting as effective sound barriers in urban settings. Additionally, they are valued for their ability to screen unsightly views, such as neighboring properties or roadways, thereby enhancing the aesthetic appeal of a landscape.

Murraya Paniculata

Radermachera Summerscent

In commercial settings, hedging is frequently utilized to delineate pathways, outdoor seating areas, or parking lots, improving the overall organization and visual coherence of the space. Whether used in residential gardens, public parks, or corporate landscapes, hedging plants play a crucial role in shaping and enhancing outdoor environments for both aesthetic enjoyment and functional purposes.

GLEDITSIA

HONEY LOCUST TREE

In spring, Gleditsia trees burst forth with a vibrant display of renewal and growth. The delicate, fern-like foliage emerges in shades of fresh green, gracefully adorning the tree's elegant branches. Bright clusters of tiny, fragrant flowers add a subtle sweetness to the air, attracting bees and other pollinators. Against the backdrop of a clear blue sky, the Gleditsia's canopy transforms into a verdant veil, swaying gently in the breeze. This season marks a time of rejuvenation for the Gleditsia, as it prepares to provide shade and beauty throughout the warmer months ahead.

Acer Palmatum

ACER

JAPANESE MAPLE

Acer 'Japanese Maple' unveils its stunning transformation, captivating observers with its delicate and intricate foliage during Spring. As the days grow shorter, the tree's deeply lobed leaves emerge in vibrant hues of red, pink, and green, creating a mesmerizing tapestry of color. The new growth appears almost translucent, allowing sunlight to filter through and cast a soft, dappled light beneath the canopy. As the season progresses, the leaves mature into a rich palette, providing a dynamic display that changes with the light and weather. The Japanese Maple's graceful branches and elegant form add a touch of serenity to gardens and landscapes, making it a cherished centerpiece during the spring season.

FERNS

Ferns are versatile additions to indoor and shady spaces, valued for their lush foliage and air-purifying qualities. Thriving in low-light conditions, they enhance indoor air quality while adding aesthetic appeal to home and office decor. From delicate maidenhair to robust Boston ferns, their diverse forms suit various design preferences, making them functional and decorative elements in indoor environments.

REVEGETATION

With the planting season well underway, our Revegetation Department is experiencing a significant surge in demand. It's crucial not to miss the opportunity to secure the native tubestock you require for 2025. We strongly encourage you to place your orders promptly to ensure availability. Our team is committed to providing exceptional quality and service tailored to your revegetation projects, so act now to avoid any potential delays and ensure your requirements are met satisfactorily.

Benara Nurseries is dedicated to preserving natural habitats, a commitment that has led us to establish a specialized native tubestock department. Our experienced team excels in propagating and delivering high-quality native tubestock essential for revegetation and landscaping projects.

We cater to diverse environments, including metropolitan and regional areas, coastal zones, wetlands, riverbanks, woodlands, hills, post-harvest pine forests, and reclaimed farmlands. Our expertise spans technical and aesthetic aspects, focusing on habitat restoration with a variety of species, particularly those native to the Swan coastal plain.

Benara offers tailored solutions, from small, provenance-specific batches to large-scale volume contracts, ensuring top standards of quality and adaptability.

Members of the Revegetation Industry Association of WA (RIAWA), we contribute to enhancing industry standards and sustainability practices.

TERMS AND CONDITIONS

TRADING TERMS

The monthly TRADE price list applies to TRADE ID CARD holders. All TRADE clients must show TRADE ID CARD at time of purchase. WHOLESALE clients must show business ID with each purchase. TRADE REFERRALS must provide a letter of referral on the company letterhead of the referrer at time of purchase and will be charged 'Wholesale Price' unless accompanied by the referrer. WHOLESALE clients can not refer clients. All prices quoted are Trade prices excluding GST. Benara Nurseries will not accept any responsibility for damage to stock once it has been delivered to a transport company. Claims relating to any damages should be addressed with the carrier. If plants are personally selected by the client from the stock line for delivery or pick up, will be held no longer than 48 hours, due to plant care requirements.

CASH AND CARRY

Cash and Carry Discount is offered to all TRADE and WHOLESALE customers. Discount DOES NOT apply to selected stock, specials, allied garden products, pottery, stones and artificial turf. All stock purchased needs to be paid for and taken on the day. No holding stock. CARABOODA
5% Cash & Carry discount on plant stock up to and incl. 30lt, selected and taken from the Trademart.
5% Cash & Carry discount on plant stock from 35lt to 500lt, selected and taken from the Trademart.
FORRESTDALE
5% Cash & Carry discount on plant stock up to and incl. 30lt, selected and taken from the Trademart.
5% Cash & Carry discount on plant stock from 35lt to 500lt, selected and taken from the Trademart.

PICK UPS

Pre-organised pick ups must be a minimum of \$150.00 in value. Pick up orders must be placed 48 hours prior to pick up time. If you require a pick up before this time please contact our sales staff. FORRESTDALE
Pick up orders must be placed 72 hours prior to pick up time. Pots up to 15cm must be ordered in multiples of 4. 17cm and 5lt pots must be ordered in multiples of 3 or 5. If minimum quantity is not met, Benara has the right to increase the minimum quantity order without notice. All pickups that are not picked up on the required date will incur a 20% handling fee. Advanced Trees are available for viewing/pick-up between 7.00am – 3.30pm on Monday to Friday only. All advanced tree orders and viewing must be booked through the office sale staff.

SATURDAY TRADING

OPENING HOURS 7.30AM – 2.00PM.
All sales are strictly from the sales display area only. Staff and customers do not have access to the growing nurseries on SATURDAYS. Pre-organised pick ups are available between 7.30AM - 1.00PM. All advanced tree orders and appointments are weekdays only. Book a viewing with the office sales team between 7.00AM - 3.30PM, Monday to Friday only.

DELIVERIES

Seedling deliveries in tray quantities only. 48 hours notice required for general stock deliveries. Orders must be placed with Sales Office before 3.30pm on Mondays – Friday. Kerb side deliveries only, up to and including 30lt bag/pot size. Pots up to 15cm must be ordered as a minimum of 4. 17cm and 5lt pots must be ordered as a minimum of 3. If minimum quantity is not met, Benara Nurseries has the right to increase the minimum order quantity without notice. Deliveries are unavailable from the Forrestdale Trademart.

DELIVERY TO BUNBURY & SURROUNDING AREAS

Scheduled delivery dates to Bunbury are Monday, Thursday and Friday. For Monday deliveries, orders need to be placed by Thursday the week prior. Deliveries cannot be guaranteed to Bunbury on Mondays as often the trucks are full with deliveries for further south. Current month's delivery schedule available online.

REVEGETATION CELL TRAYS

Orders for Cell trays will be charged as follows and credited upon return of the tray: 64 Cell
tray = \$5.00 (64CELTRA); 104 Cell tray = \$7.00 (104CELTRA).

ADVANCED TREE STOCK DELIVERY

Deliveries above 30lt bag/pot size. Minimum delivery charge \$199.00 or 5% of order value, whichever is greater. Delivery boundaries:
Within Perth metropolitan area.
Outer metropolitan deliveries by prior arrangement.
Delivery days Monday to Friday depending on load capacity.

STONES

Full stone pallets only. Customer must have a forklift at the delivery site to unload stock. Delivery Schedule and Charge
Northern suburbs \$95.00 ex GST, additional pallets will be charged \$45.00 per pallet.
Southern suburbs \$145.00 ex GST, additional pallets will be charged \$45.00 per pallet.

POTTERY

Delivery not available for pottery items. Benara can pack for a courier to collect at a cost of \$50.00 per pallet to pack. If the customer would like the pottery delivered to a transport company a packing and delivery charge of \$150.00 will be applied.

RESERVED STOCK

Only quantities above 50 plants will be reserved and held in 13cm – 12lt pots. For all other reserved contract grown stock conditions, please see your Salesperson.

RETURNS AND CANCELLATIONS

No tree will be accepted back under any circumstances if it has been taken out of the bag, as this is against accreditation standards. Benara Nurseries reserve the right to charge a handling fee of 20% for all returns, cancellations and amendments. Stock may only be returned at the point of delivery and only by the approval of management. Approved returns within 24 hours for faulty product will be refunded. No credits will be given for customer change of mind or incorrect size if not returned in good order and condition within 48 hours. Benara Nurseries will not accept any responsibility for damage to stock once it has been delivered to or picked up by a transport company. Claims relating to any damages should be addressed with the carrier.

IMPORTANT

Refer also to 'Terms and Conditions' of sale on Benara Nurseries website.
